Holoplanktonic mollusks (Mollusca: Gastropoda) from the Gulf of California, México

Orso Angulo Campillo, Gerardo Aceves Medina & Raymundo Avendaño Ibarra

We compiled a checklist of holoplanktonic mollusks obtained from seven oceanographic surveys performed between 2005 and 2007 in the Gulf of California, Mexico. The checklist comprises five orders, 15 families, 28 genera and 62 species, including 39 new records and two range extensions within the Gulf.

Palabras clave: Body growth, Holoplanktonic mollusks, Gasteropods
